

Diagram for Reference

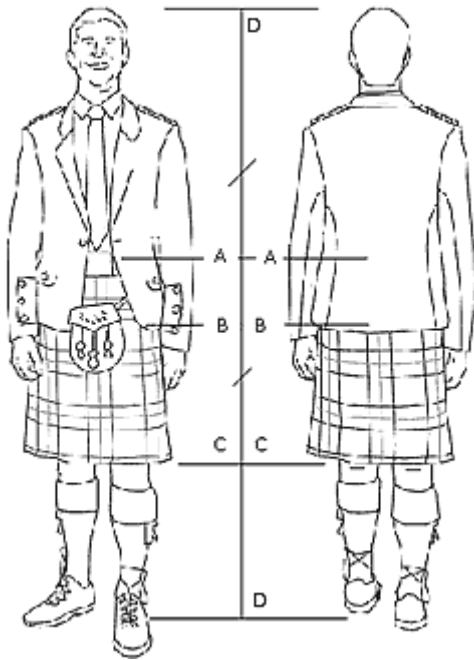

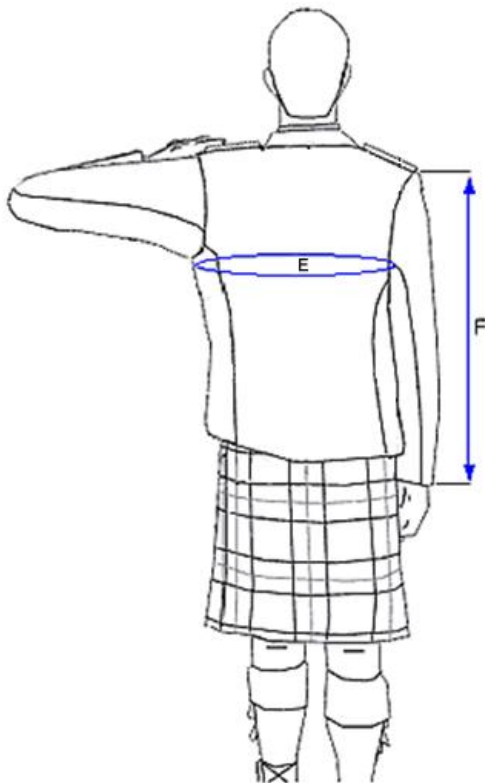

Diagram for Reference

Please state whether you are using inches or cm

Kilt measurements

A: Waist Measurement

Measure around waist at Navel height. Take measurement firmly, so that Kilt may sit comfortably without falling down.

B: Seat Measurement

Measure round seat with trousers on at widest point.

C: Kilt Length

You will need assistance with this measurement. Stand straight with your feet 8" apart. The helper should then measure from your navel straight to mid knee cap, or shorter if desired.

Do not bend over and watch what is happening.

D: Full Height

We will also require your overall height to check that measurements appear correct. Please give your full height from head to foot without shoes on.

Jacket measurements

E: Chest

Measure loosely around chest at under arm height while wearing a shirt/vest (no Jacket), with arms by the sides. Do not inflate the chest.

F: Sleeve Length

Measure from shoulder seam to desired length at cuff. Ideally half an inch of cuff should be visible.
